## Professional Summary

Robotics and Artificial Intelligence Engineering undergraduate graduating in 2027, with hands-on experience in **Python, SQL, statistics, data analytics, and machine learning**. Combines an engineering and AI foundation with data cleaning, EDA, visualization, predictive modeling, and structured problem solving to support **decision science and data-driven business insights**.

## Education

**Bachelor of Engineering in Robotics and Artificial Intelligence** **2027**
*Jawaharlal Nehru New College of Engineering (JNNCE), Shivamogga* CGPA: **7.65/10**

**Pre-University Course (PCMB)** **75.6%**
*Sri Aurobindo Independent PU College*

**SSLC (CBSE)** **80.1%**
*Podar International School*

## Technical Skills

**Programming & Databases:** Python, SQL, PostgreSQL, MySQL, MongoDB.
**Data Analysis & Visualization:** Pandas, NumPy, Excel (Pivot Tables, VLOOKUP/XLOOKUP, Charts), Power BI, Matplotlib, Seaborn.
**Analytics Concepts:** Statistics & Probability, Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Data Storytelling.
**Machine Learning:** Scikit-learn, Regression, Classification, Clustering, Train-Test Split, Cross-Validation, Model Evaluation.
**Tools & Web:** VS Code, Jupyter Notebook, Git/GitHub, Google Sheets, HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, AI Tools and Workflow Automation.

## Projects

**Retail Customer Intelligence & Sales Analytics**
*Python, SQL, Power BI, Pandas, PostgreSQL, SQLAlchemy, Jupyter Notebook*

- Analyzed **3,900+ retail transactions** using Python, Pandas, and SQL to identify customer purchasing patterns, product performance, discount behavior, subscription trends, and revenue drivers.
- Performed KPI analysis in PostgreSQL and built an interactive **Power BI dashboard** to translate transaction-level data into actionable customer and sales insights.

**Hotel Booking Performance & Cancellation Risk Analysis**
*Data Cleaning, EDA, KPI Analysis, Data Visualization*

- Analyzed **118,897 hotel bookings** to evaluate cancellation patterns, revenue risks, seasonal pricing trends, and customer behavior, identifying a **37.1% overall cancellation rate**.
- Investigated booking lead times, deposit policies, and guest engagement to identify **high-risk customer segments** and recommend data-driven strategies for **revenue optimization, inventory planning, and cancellation reduction**.

**Customer Retention & Churn Analysis**
*Data Cleaning, Data Integration, EDA, KPI Analysis, Data Visualization*

- Integrated and analyzed customer, subscription, and support data across **3 databases** to identify churn patterns, customer retention drivers, subscription performance, and high-risk customer segments.
- Identified a **28.6% customer churn rate** and **$73.94 in lost monthly recurring revenue**, uncovering strong relationships between support escalations, subscription plans, and cancellations to recommend **data-driven customer retention strategies**.

**Global Supply Chain & Sales Intelligence Analytics**
*Python (Pandas, NumPy), PostgreSQL, Power BI / Tableau, Jupyter Notebook*

- Analyzed **180,500+ supply chain transactions** across **65,700+ orders** and **$36.8M in revenue** using Python and SQL to identify delivery bottlenecks, customer purchasing patterns, and profitability risks.
- Identified a **54.8% late delivery risk**, uncovered **$3.88M in profit losses** and **$826K in fraudulent transactions**, and designed an interactive BI dashboard to support **logistics optimization, fraud monitoring, and data-driven business decisions**.

## Certifications

- Employability Skill Training Programme Certificate
- Python Programming Language Completion Certificate
- MongoDB Basics Completion Certificate

## Leadership & Extracurricular

- **TechForge Club Lead:** Led and supported student-focused technology initiatives and club activities.
- **Event Hosting & Content:** Hosted **FossHack 2025** and planned and created content for major college events.
- **Technical Sessions:** Delivered sessions on **AI tools, workflow automation, and microcontrollers**.
- **Communication & Sales:** Experienced in sales and proficient in **English, Hindi, Kannada, and Urdu**.
